PROJECT UPDATE AND SCHEDULE

AP & Sons continued storm sewer installation activities and base course grading. Storm sewer inlets were installed along 7th Avenue between Circle Drive and 2nd Street. Progress has been limited due to ongoing utility relocations, including gas main relocation and underground power.

Curb and Gutter installation is scheduled to begin on Tuesday, August 18th. Residents without alley access can expect temporary restrictions to driveway access while the newly installed curb and gutter cures. Please use adjacent streets for parking during this time.

If you have questions or concerns about the project, please feel free to contact Justin Eccles with AP & Sons or Banner Associates.
